YOUR SALON DESIGN STYLE

modern, minimal & lots of curves

For the modern muse, find tranquility by working with these contrasting fluid curves and forms. A pared back space, soft and sensual, fuses natural stone finishes with new curvaceous shapes in doorways, decorative pieces and furniture. Adding wood finishes and rattan gives it an earthy take on this 'down-to-earth' salon look.

YOUR SALON DESIGN STYLE

vibrant pops of colour

For the lovers of colour and all things bright, this energetic salon interior trend reflects enthusiasm and an attitude for vibrant bold salon interiors. Sprinkling colours of summer in wall colourings, whether paint or wall paper it is complemented with statement furniture silhouettes to create a mish mash of colours. Combine sorbet tones that contrast with brave saturated colours. Think blush pink and cantaloupe paired with earthy dusty tones.

IT'S YOUR PERSONAL WORKSPACE

made for you, with help from you, introducing an urbane trolley for salons that moves and works with you...the hairstylist.

The Comfortel **mova** hairdressing trolley was designed for salons, and developed with hair stylists. We went out to see what hairdressers really wanted and needed. We watched, we asked, and researched in depth on how you worked, so we could create a personal moving workspace for you to create with pride. Finally we designed a thoughtful, modern trolley that suits the way you work and complements your salon space. With clean lines and classic proportions, every function and feature was considered.

DEVELOPED WITH HAIRDRESSERS / CREATED BY COMFOTEL.

YOUR VERY OWN PERSONAL ASSISTANT

mova is designed to keep up with the pace of your work. We have transformed the idea of a salon staple into a personal mobile work assistant that moves and works with you.

IT'S SLEEK FOR THE THE MINIMALIST

A lesson in chic simplicity, there are no handles on the drawers to spoil those clean lines; just a lip that's easy to slide open. The curved frame is wrapped with aluminium and contrasts with the heat proof inserts.

MATERIALS THAT MATTER

Exclusive to Comfortel, **mova** showcases our love for materials. We wanted it to be a show stopper, so we designed it with sleek finishes, hard metals and easy to clean surfaces to make it easier for you to define style with pride.

doing the hard work for you

COMFOTEL / EXCLUSIVE

Where colourists used to be tasked with preparing their own foil, Comfortel has an improved answer to that. The 24*7 Electric Foil Dispenser allows the machine to do the work for you.

Available in black, each machine dispenses 500m rolls of foil in a choice of four lengths and four fold options into a handy tray ready for use. Simply choose the length of foil, the size of fold and the amount of foils required and the machine takes care of the rest. Once seduced, you'll be amazed at how easy the Procure 24*7 is to use. If you're determined to see your colour business grow, this will make a real difference. Comfortel is making your job easy thanks to their fully automatic 24*7 Hair Foil Dispenser – Time, money and energy – saved!

How Sustainable is your foil?

At Comfortel we care about the environment and work with our suppliers on eco-solutions, waste reduction and money saving ideas for our salon customers.

Is 24*7 foil made from recycled aluminium?

Did you know that Hair Foils must be made with a high content of primary aluminium so they don't react with hair colourants? Comfortel uses recycled content during the manufacturing of its foil, but unfortunately it is not possible to make Hair Foils using only recycled aluminium!

Is 24*7 foil RECYCLABLE?

Yes! All aluminium products can be recycled, this is one of the huge benefits of aluminum as a product. Aluminium can be recycled over and over again. In fact 75% of all the aluminium that has been produced since 1988 is still in the loop.

So why should you use 24*7 foil?

Its simple. By cutting each foil exactly how you want it, the 24*7 eliminates waste and saves you time and money!
